DUBAI ACCELERATED LEARNING CENTER

## ACCELERATED LEARNING WORKSHOP

You deserve to choose the best. You deserve to be sure that your investment in training and development will suit your needs, and reach the goals you set. We want the experience of AL to be as smooth for you as it can be. Understanding information, and incorporating it into one's experience are two different issues. What is learnt is way more important than what is taught. AL helps bridging this gap through a more reasonable approach to human brain, via presenting information in a way that helps trainees effectively incorporate the new experience into their own.

### Attending the AL workshop, you will:

- Try the seven principles of AL.
- Discover: a lot about your brain and how to use it more effectively.
- Discover how you can motivate your trainees.
- Learn new ways to reduce stress.
- Learn how to appeal to all learning models.
- Develop creative methods that can help reduce the training time and cost.
- Learn how to apply AL methods to just any training.
- Learn how to create a healthy learning environment.
- Learn how to get learners involved.
- Learn about the importance of proper use of aiding material.
- Learn how to effectively reduce design time.
- Get training on your own material.
- And much more.

**Start the fun and enjoyment with AL...**
